

FY 1995 Prospective Payment System Payment Impact File:

This file contains data used to estimate FY 1995 payments under Medicare's prospective payment systems (PPS) for hospitals' operating and capital costs.

The data are taken from various sources, including the Provider Specific File, the PPS-VIII and PPS-IX Minimum Data Sets, and prior impact files. The data set is abstracted from an internal file used for the impact analysis of the changes to PPS published in the Federal Register. This file is available for release one month after the PPS Proposed and Final Rules are published in the Federal Register, which generally occurs during the first weeks of May (Proposed) and September (Final).
